

# Helping growing companies succeed with SAP Business One

As an FD, you need to ensure your company has the right business management software in place to deliver tangible, long-term success – no matter what the future holds.

At APH, we have a proven track record in helping growing companies transform their finances by moving from basic accounting tools to ERP. Our SAP Business One solution isn't a stop-gap – we pride ourselves on a lifetime implementation methodology that takes into account your unique business needs, infrastructure and support requirements, and plans for the future.

## Who we work with

- **Manufacturing** – ERP can contribute massively to a manufacturer's efficiency and profitability. Our SAP Business One solution provides a stable and effective platform for growth.
- **Wholesale/distribution** – with business-wide cost management and reporting tools, SAP Business One is ideal for wholesalers and distributors looking to improve their margins.
- **Retail/ecommerce** – we can integrate SAP Business One with Magento, Amazon and other leading ecommerce platforms to deliver the high level of service your customers have come to expect.
- **Service industry** – if you have complex requirements around service scheduling, project-based job costing or mobile access, or need help managing SLA compliance, we can help.

## Problems we solve

- We deliver an **affordable and adaptable ERP solution for growing companies** that underpins financial management, CRM, inventory, project planning, job costing, remote access and more.
- We take the time to **understand and optimise your business processes**, building a solid foundation for your ERP implementation.
- We provide **flexible hosting and payment options**, including fully managed IT services.
- We help companies solve their problems around legacy systems and duplicate data, delivering visibility, efficiency and cost savings – and an **ERP solution that grows with their business**.

## Why APH?

Our unique methodology means we don't do things by halves. We take the time to understand your business needs before delivering a solution that addresses them, and we continually review and optimise the software so it creates value for a long time to come.

That way, we ensure your finance transformation efforts result in measurable, long-term success –powered by SAP Business One, the leading ERP solution for small and medium-sized companies.
